

NEWS RELEASE

American Cylinder is pleased to announce the completion of Phase One of the American Cylinder Co., Inc. WebSite renovation. The site features a new homepage look with a scrolling banner highlighting examples of our product lines as well as image links to the various product catalogs. It also features new and improved catalog images in PDF format for viewing and/or downloading.

A new Search Box has been added to the Distributors page for users to locate their local distributors more quickly without having to scroll thru the entire list of states. A new Contact Us page has been added to simplify and expedite user requests and can help produce meaningful leads that can be forwarded on to you, our distributors.

We continue to develop and work on Phase Two which will feature a configurator for model selection and 3-D modeling of our products. Downloadable CAD files will be available in both native 2-D and 3-D versions in a wide variety of CAD formats. We are excited about these improvements and invite you to visit and take a tour of the new site:
